

MENTORSHIP PROGRAM

Team members are african diaspora scientists

To our valuable ADSF Member community, Science Experience and Career Path Exchange (SECPE) is a self-directed mentoring program that gives us the opportunity to be matched 1:1 with a mentor, or mentee from our database. The program provides a digital platform where you can form new connections, learn and collaborate from peers residing in Diaspora or Africa, and share career advice and experiences.

Eligibility

- Are Members of ADSF (Not a Member yet? Click [here](#) to join.)
- Are 18 years of age or older
